

**SUBJECT
INDEX
OF THE
NEW URBAN
AGENDA**

© 2017 United Nations

The subject index of the New Urban Agenda was developed by the Habitat III Secretariat. The concepts identified in it do not imply any opinion whatsoever of the United Nations concerning the legal status of any country, territory, city or area or its authorities, or concerning the delimitation of its frontiers or boundaries regarding its economic system or degree of development. The subject index does not necessarily reflect the views of the United Nations or its Member States.

The New Urban Agenda was adopted at the United Nations Conference on Housing and Sustainable Urban Development (Habitat III) in Quito, Ecuador, on 20 October 2016. It was endorsed by the United Nations General Assembly at its sixty-eighth plenary meeting of the seventy-first session on 23 December 2016.

Any discrepancies or differences that appear in the subject index from the official New Urban Agenda document endorsed by the General Assembly (A/RES/71/256*) are not binding and have no legal effect for compliance purposes. Please refer to the official document for the accurate and agreed meaning of all terms and concepts in the New Urban Agenda.

The subject index of the New Urban Agenda is the product of work led by Ana B. Moreno, Habitat III Secretariat Coordinator, and a team comprised of Roi Chiti, Ilija Gubic, Bart Lahcen, Thibaut Nguyen, Laney Stone, and Nhusha Vu. This publication is not subject to copyright, and it may be freely reproduced, provided acknowledgement is given to the United Nations.

An electronic version of the New Urban Agenda with the subject index included, as well as other documents from the Habitat III preparatory process and the Conference itself, are available for download from the Habitat III website at www.habitat3.org.
