<b>Background information on Training Event (themes, context, capacity challenges).</b>	Urbanization, institutional Capacity,
<b>Concise summary of Training Event, and the skills developed during the event.</b>	<p>The training was conducted as part of training programme that was held during Habitat III conference in Quito on 20th October. The training gathered city leaders as well as representatives from universities, business professionals, community leaders, diplomats and nonprofits. The facilitators from UN-Habitat talked about importance of urban planning from the implementation perspective of NUA and SDG Goal 11. Experts also highlighted the importance of urban planning reasons for planning to achieve sustainable urban development in cities in developing countries. Special focus give on integrated approach for urban planning that combines urban plan along with legislation and financial framework which is known as 3 pronged approach. Numerous examples on 3 legged approach were presented by the experts. Intermediate results: The trainee received basic knowledge on the importance of urban planning from SDGs and NUA perspectives. Participants also raised their awareness on how citizens and city leaders can play important roles in decision making for sustainable urban development in their cities. City leaders also realized the capacity needs for urban planning accompanied by legal and financial frameworks towards sustainable urban development.</p>
