Metropolitan Governance: Multilevel coordination for a comprehensive territorial and urban planning

18th october 2016
11:00 - 12:00 p.m.
Room R21

The growth of metropolitan areas has blurred the frontiers. The management of metropolis demands a multilevel coordination with institutional arrangements and legal frameworks of governance that enables metropolitan planning with a long-term vision and beyond the temporary political-administrative limits that at present conform local governments.
